

# MK KeyCase

DimensionVitrine

## Present your pride and joy at home.

We here at MüllerKälber have created the MK KeyCase so now you can display your treasures at home or in your office to full effect. This case has been specially designed for presenting models of vehicles such as cars, motorcycles or boats, allowing you to present and admire your pride and joy from the comfort of home.

A photo mount is integrated at the back of the case where you can display a picture of your cherished vehicle or even an image of a particular landscape, race track, or the like.

In the foreground is a glass shelf on which you can present a 1:43 scale miniature of your chosen object. Next to the model is a holder for your key.
